

Sr no	URL	Purpose of Website	Things Liked	Things Disliked	Overall Evaluation (Good/bad)
1.	www.pinterest.com	visual discovery engine for finding ideas like recipes, home and style inspiration, and more.	<ul style="list-style-type: none"> <li>- there is a 'stop requests to log in' toggle button.</li> <li>-every pin on the feed has a download image button which pops up on hovering the mouse on a specific pin. (no need to expand the pin first)</li> <li>-a related interests section which is coherent with the overall feed.</li> </ul>	<ul style="list-style-type: none"> <li>-dark mode feature does not exist without resorting to a separate extension.</li> <li>-improper spatial arrangement while viewing an image.</li> <li>-pinning process is a bit inconvenient.</li> </ul>	Good
2.	www.nasa.gov	<a href="#">innovating for humanity's benefit</a> , and <a href="#">inspiring the world through discovery</a> , offering public access to scientific data	<ul style="list-style-type: none"> <li>-simple and sleek design with fitting colour scheme.</li> <li>- extremely legible text formatting and spacing.</li> <li>-interactive buttons which light up on hovering above them.</li> </ul>	<ul style="list-style-type: none"> <li>-the search and filters tab in the missions section is placed vertically (to the left of the feed) which cuts off some of the space for results.</li> <li>-scrolling around the website gets a bit confusing due to redundant links to sections.</li> </ul>	Good
3.	www.quora.com	<i>question-and-answer platform</i> that connects people with similar thoughts together.	<ul style="list-style-type: none"> <li>-sorting options for comments under all result posts.</li> <li>-hide option for result posts found to be irrelevant to the users.</li> </ul>	<ul style="list-style-type: none"> <li>-flow of results is improper. every result is displayed partially one after the other with individual 'continue reading' option. (no smooth scrolling)</li> <li>-redundant related questions section affects spacing of main content.</li> </ul>	Bad

4.	msrtc.maharashtra.gov.in	Maharashtra government booking system to book tickets/ get bus schedule for state travel.	<ul style="list-style-type: none"> <li>-engaging animation</li> <li>-clear ticket booking interface</li> </ul>	<ul style="list-style-type: none"> <li>-really tacky colour scheme with unnecessary flashing of buttons.</li> <li>-highlights are empty (the most recent ones could be displayed)</li> </ul>	Bad
5.	https://www.aut.ac.nz/	educational website for Auckland University of Technology, New Zealand.	<ul style="list-style-type: none"> <li>-back to top button is inbuilt on each page</li> <li>-interactive buttons which light up on hovering. (immersive scrolling)</li> </ul>	<ul style="list-style-type: none"> <li>-certain links open a new tab with no way to renavigate to initial point.</li> <li>-colours are bit too vibrant couldve been desaturated for visual convenience.</li> </ul>	Good
